- 5** GPS and cell phone reception is spotty in some locations.
- 6** Please check your directions before you head out!
- 7** For any questions please contact the farmers directly on the day of the tour.

FARM TOUR *Activity*

Enter for a chance to win \$100 in goodies from local farms!

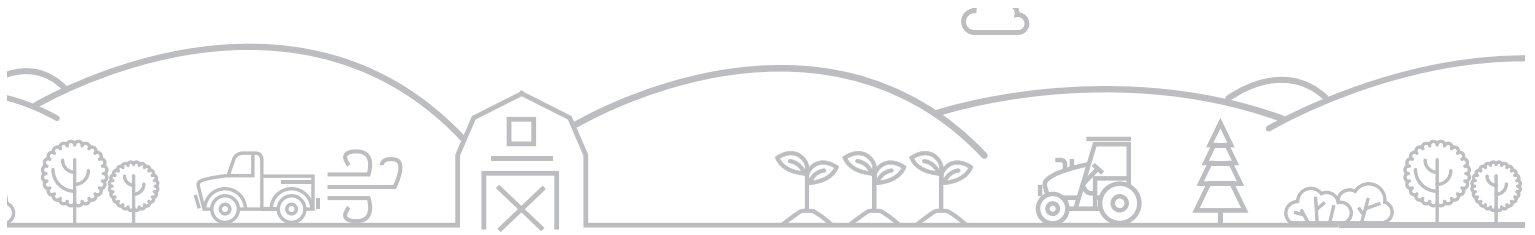

Learn more about the tiny essential workers that make farming possible: pollinators! Our Family Farms developed an activity for you to complete as you explore our local farms and ranches. Pick up a Pollinator Activity Sheet at any farm (or download it from our website) and complete the activity for your chance to win a Rogue Valley gift basket filled with goodies from the farms, valued at \$100. To enter: take a photo of your completed activity sheet and post to Facebook with the tags #RogueValleyFarmTour and #OurFamilyFarms!

Pollinators are crucial to our world. Without them, 85% of all flowering plants, including food crops, trees, and shrubs would not be able to reproduce. Pollinators play a vital role - fertilizing a plant's seeds with pollen from another flower of the same plant species. These plants, and the pollinators themselves, provide food for birds, fish, other wildlife, and us!
